

Agenda:

Financial Review

The initial quote from one firm is very high (\$2500). However, one of the auditors suggested that we consider having one of the board member who is not associated with the financial record keeping to do an internal review. This may actually be the most cost effective approach. What do you think of the idea? and Would anyone like to volunteer for the job?

Certificates of Deposit

To date, I have only gotten rate information from Capital City Bank. However, once we choose the place to make the purchase, we will still need a Resolution from the Board. What is the status on that?

Dues Mailing

The offer to reduce the 2008 dues by \$5 if paid by 03/31/08 had a good response. Nearly 25 homeowners took advantage of the savings, which meant in some cases the homeowners also paid past as well as current dues. In addition, there are the obvious savings in postage, office supplies and labor fro the rest of the year.:) The next dues mailing should go out before the end of May.
