PETITION FOR EVALUATION OF PRIVATE STREETS

As a property owner in HARTSFIELD VILLAGE, I request that the City of Tallahassee evaluate the feasibility and cost of upgrading the street(s) in HARTSFIELD VILLAGE for the purpose of accepting said streets for City ownership and maintenance.

I understand that, if the street(s) are accepted for ownership and maintenance by the City, all rights-of-way and easements necessary for maintenance of the facilities are to be granted to the City at no cost to the City, and that one-half (1/2) of the costs of the upgrade will be assessed to the property owners.

I understand that signing this petition does not obligate me for anything, however it is necessary to start the process of evaluating the feasibility and cost of upgrading the street(s) and having the City of Tallahassee assume ownership and maintenance.
